S. C. 601 et seq.; 62 Stat. 1247; 63 Stat. 1051), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Part 900); a public hearing was held at Hightstown, New Jersey, on October 24–26, 1949, upon a proposed marketing agreement and a proposed marketing order regulating the handling of Irish potatoes grown in New Jersey. Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) The terms and provisions of this order prescribe, so far as practicable, such different terms, applicable to different production areas, as are necessary in order to give due recognition to the difference in production and marketing of such Irish potatoes;

(2) This order is limited in its application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of

the act, and the issuance of several orders applicable to any subdivision of said production area specified herein would not effectively carry out the declared policy of the act;	
(3) This order, and all of the terms and conditions of this order, will tend to effectuate the declared policy of the act with respect to Irish potatoes produced in said production area, specified in this order, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (1) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the	

current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such Irish potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such Irish potatoes as will be in the public interest; and

(4) All handling of potatoes grown in the production area and in the current of commerce within the production area or between the production area and any point outside thereof, is either in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is necessary, in the public interest, to make the effective date of this order not later than April 6, 1950. Any delay beyond such effective date will seriously jeopardize the possibility of attaining the orderly marketing of the 1950 crop of Irish potatoes grown in New Jersey. It is necessary to make this order effective by the aforesaid date, so that the New Jersey Potato Marketing Committee, the administrative agency provided for in the order, can be organized and start functioning as soon as possible, because the committee is required, by the marketing agreement and order, to investigate relevant supply and demand factors applicable to the handling of Irish potatoes grown in the production area, and thereafter recommend appropriate rules and regulations, which should be issued prior to the beginning of the harvest season for such potatoes. Such effective date is necessary and desirable to afford such handlers the maximum available time to make necessary preparations for compliance with such rules and regulations, consistent with obtaining the benefits of the marketing agreement and order program for all of the 1950 crop of the aforesaid potatoes. The nature and provisions of the marketing agreement and order are well known to handlers of Irish potatoes grown in New Jersey, because a series of meetings was held in the production area prior to the public hearing, which was held October 24-26, 1949, and subsequent to such hearing, because the recommended and final decisions were published in the *FEDERAL REGISTER*, on January 13, 1950, and February 21, 1950, respectively, and because there has been widespread newspaper and radio publicity relevant thereto. It is hereby found and determined, in view of these facts and circumstances, that good cause exists for making this order effective April 6, 1950, that ample time is thereby afforded handlers to make necessary preparation to comply with the marketing agreement and order and all rules and regulations issued thereunder, and that it would be contrary to the public interest to delay the effective date of the order for 30 days after publication thereof in the *FEDERAL REGISTER* (5 U.S.C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that:

(1) The marketing agreement regulating the handling of Irish potatoes grown in New Jersey, upon which the aforesaid public hearing was held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping Irish potatoes grown in the aforesaid area) who handled not less than 50 percent of the volume of potatoes covered by the order.

(2) This order regulates the handling of such Irish potatoes in the same manner as, and is made applicable only to the persons in the respective classes of industrial and commercial activity specified in, the aforesaid marketing agreement;

(3) The issuance of this order is favored or approved (i) by at least two-thirds of the producers who participated in a referendum conducted by the Secretary of Agriculture and who, during the representative period (May 1, 1948 to April 30, 1949) determined by the Secretary of Agriculture, were engaged, within the production area specified herein, in the production of Irish potatoes for market, and (ii) by producers that participated in the aforesaid referendum, who, during the aforesaid representative period, produced for market within the production area specified in this order, at least two-thirds of the volume of Irish potatoes produced by all producers who participated in the said referendum.

*Order relative to handling.* It is hereby ordered, pursuant to the findings and determinations set forth in § 998.0 hereof and pursuant to the aforesaid act, that such handling of potatoes, as defined in this order shall, from and after the time hereinafter specified, be in conformity to and in compliance with the terms and conditions of this order.

#### DEFINITIONS

§ 998.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 998.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051).

§ 998.3 *Person.* "Person" means an individual, partnership, corporation, association, or any organized group or business unit.

§ 998.4 *Production area.* "Production area" means all territory included within the boundaries of the State of New Jersey.

§ 998.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown within the State of New Jersey.

§ 998.6 *Handler.* "Handler" is synonymous with shipper and means any

person (except a common or contract carrier of potatoes owned by another person) who ships potatoes.

§ 998.7 *Ship.* "Ship" or "handle" means to transport, sell, or in any other way to place potatoes in the current of commerce within the production area or between the production area and any point outside thereof.

§ 998.8 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 998.9 *Fiscal year.* "Fiscal year" means the period beginning on May 1 of each year and ending April 30 following.

§ 998.10 *Committee.* "Committee" means the administrative committee called the New Jersey Potato Marketing Committee, established pursuant to § 998.22.

§ 998.11 *District.* "District" means describes and refers to each of the geographic divisions of the production area hereby established as follows:

District No. 1: Burlington, Mercer, Middlesex, Monmouth and Ocean Counties;

District No. 2: Atlantic, Camden, Cape May, Cumberland, Gloucester and Salem Counties;

District No. 3: All the remaining counties in the State of New Jersey.

§ 998.12 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 998.13 *Seed potatoes.* "Seed potatoes" means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified, under the supervision of the official seed potato certifying agency of the State of New Jersey.

§ 998.14 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of "seed potatoes."

§ 998.15 *Wholesale pack.* "Wholesale pack" means a unit of fifty pounds net weight or more of potatoes contained in a bag, crate, or any other type of container.

§ 998.16 *Consumer pack.* "Consumer pack" means a unit of less than fifty pounds net weight of potatoes contained in a bag, crate, or any other type of container.

§ 998.17 *Grade.* "Grade" means any one of the officially established grades of potatoes, and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) The United States Standards for Potatoes issued by the United States Department of Agriculture (14 F.R. 1955, 2161), or amendments thereto, or modifications thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes as issued by the United States Department of Agriculture (12 F.R. 7281), or amendments thereto, or modifications thereof, or variations based thereon; and

## RULES AND REGULATIONS

(c) New Jersey Standards for White Potatoes as issued by the New Jersey Department of Agriculture or amendments thereto, or modifications thereof, or variations based thereon.

§ 998.18 *Export.* "Export" means shipment of potatoes beyond the boundaries of continental United States.

## ADMINISTRATIVE COMMITTEE

§ 998.22 *Establishment and membership.* (a) The New Jersey Potato Marketing Committee consisting of twelve members, of whom eight shall be producers and four shall be handlers, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) (1) Persons selected as committee members or alternates to represent producers shall be individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in such district, and such persons shall be residents of the respective district for which selected.

(2) Persons selected as committee members or alternates to represent handlers shall be individuals who are handlers in the State of New Jersey or officers or employees of a corporate handler in the aforesaid State, and such persons shall be residents of the State of New Jersey.

§ 998.23 *Term of office.* The term of office of committee members and alternates shall be for two years beginning on the first day of a fiscal year and continuing until the end of the succeeding fiscal year, and until their successors are selected and have qualified: *Provided, however,* That the Secretary shall select one-half the initial committee to fill a one year term of office and the remainder to fill a two year term. Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during the term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 998.24 *Selection.* The Secretary shall select five producer members of the committee, with their respective alternates, from District No. 1; two producer members, with their respective alternates, from District No. 2; and, one producer member, with his respective alternate, from District No. 3, as defined in § 998.11 which members and alternates shall represent the respective district from which they are selected: *Provided,* That no county within a district shall have more than two producer members, with their respective alternates, to represent their respective districts: *And, provided further,* That the counties of Burlington, Mercer, Middlesex, and Monmouth shall each have at least one member.

The Secretary shall select four handler members of the committee, with their respective alternates, from the production area at large.

§ 998.25 *Nomination.* The Secretary may select the members of the New Jersey

Potato Marketing Committee, with their respective alternates, from nominations which may be made in the following manner:

(a) Nominations for initial members of the committee and their respective alternates may be submitted by producers, handlers, or groups thereof, and such nominations may be by virtue of elections conducted by groups of producers and by groups of handlers.

(b) In order to provide nominations for succeeding committee members and alternates:

(1) The New Jersey Potato Marketing Committee shall hold or cause to be held at least 60 days prior to the end of each fiscal year, after the effective date hereof, a meeting or meetings of producers in each of the districts designated in § 998.11 and a meeting or meetings of handlers in the production area;

(2) In arranging for such meetings the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(3) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee;

(4) Nominations for committee members and alternate members shall be supplied to the Secretary in such manner and form as he may prescribe, not later than 30 days prior to the end of each fiscal year;

(5) Only producers may participate in designating nominees for producer committee members and their alternates and only handlers may participate in designating nominees for handler committee members and their alternates;

(6) Each person who is both a handler and a producer may vote either as a handler or as a producer and may elect the group in which he votes. For purposes of interpretation under this paragraph and under § 998.22 (b) (2), a handler may qualify as such only if, of the total potatoes handled by him, 51 percent or more are produced by others; and

(7) Regardless of the number of districts in which a person produces potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates: *Provided,* That in the event a person is engaged in producing potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees: *Provided further,* That an eligible voter's privilege of casting only one vote, as aforesaid, shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 998.26 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 998.25, the Secretary may, without regard to nominations, select the committee members and alternates which selection shall be on the basis of the representation provided for therein.

§ 998.27 *Acceptance.* Any person selected as a committee member or as an

alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 998.28 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a committee member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for his unexpired term may be selected from nominations made in the manner specified in § 998.25, or the Secretary may select such committee member or alternate from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in § 998.24.

§ 998.29 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 998.30 *Procedure.* (a) Nine members of the committee shall be necessary to constitute a quorum and nine concurring votes will be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 998.31 *Expenses and compensation.* Committee members or their respective alternates shall be reimbursed for expenses necessarily incurred by them in the performance of their duties.

§ 998.32 *Powers.* The committee shall have the following powers:

(a) To administer the provisions hereof in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions hereof;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions hereof; and

(d) To recommend to the Secretary amendments hereto.

§ 998.33 *Duties.* It shall be the duty of the committee:

(a) At the beginning of each fiscal year, to meet and organize, select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes, and to engage in such research and service activities which relate to the handling or marketing of potatoes as may be approved by the Secretary;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal year, to prepare a budget of its expenses for such fiscal year, together with a report thereon;

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant hereto; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate, and exchange information at the discretion of the committee with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives hereunder.

#### BUDGET, EXPENSES, AND ASSESSMENTS

**§ 998.38 Budget.** The committee shall prepare a budget for each fiscal year showing its anticipated expenses and a proposed rate of assessment to cover such expenses. The committee shall also transmit to the Secretary a report accompanying the budget showing the basis for its calculation of expenses and the proposed rate of assessment.

**§ 998.39 Expenses.** The committee is authorized to incur such expenses as the Secretary, upon the basis of the aforesaid budget and other available information, finds may be necessary during each fiscal year to perform its functions hereunder and for such other purposes, as may be appropriate pursuant to the provisions hereof.

**§ 998.40 Rate of assessment.** The funds to cover such expenses shall be acquired by the levying on handlers of assessments. The assessment rate shall be fixed by the Secretary upon the basis of the committee recommendation and other available information applicable thereto. Each handler who first ships potatoes shall pay assessments to the committee, upon demand, which assessments shall be such handler's pro rata share of the expenses which will be

appropriately incurred by the committee during each fiscal year. Such handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year.

**§ 998.41 Increasing rate of assessment.** Upon recommendation of the committee or on the basis of a later finding relative to the committee's expenses or revenue, the Secretary may increase the rate of assessment to cover expenses which shall be appropriately incurred. Such increase shall be applicable to all potatoes handled during the given fiscal year.

**§ 998.42 Refunds.** If at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year, unless he demands payment thereof, in which event such proportionate refunds shall be paid to him.

**§ 998.43 Accounting.** All funds received by the committee pursuant to any provision hereof shall be used solely for the purposes herein specified and shall be accounted for in the following manner:

(a) The committee and its members may be required at any time by the Secretary to account for all receipts and disbursements; and

(b) Whenever any person ceases to be a committee member or alternate, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member or alternate.

**§ 998.44 Collection of funds.** (a) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

(b) In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

#### REGULATION

**§ 998.48 Marketing policy preparation.** At the beginning of each fiscal year the committee shall consider and prepare a proposed policy for the marketing of potatoes during such fiscal year. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the committee shall give appropriate consideration to the following:

(a) Market prices of potatoes, including prices by grade, size, and quality in

wholesale or in consumer packs, or any other shipping unit;

(b) Potatoes on hand in the market areas and as manifested by supplies en route and on track at the principal markets;

(c) Supply of potatoes, by grade, size, and quality, in the State of New Jersey and in other production areas;

(d) The trend and level of consumer income; and

(e) Other relevant factors.

#### § 998.49 Marketing policy reports.

(a) The committee shall submit to the Secretary a report setting forth the aforesaid marketing policy. The committee shall also notify producers and handlers of the contents of such reports.

(b) In the event it becomes advisable to deviate from such marketing policy, because of changed supply or demand conditions, the committee shall formulate a new marketing policy, in accordance with the manner previously outlined. The committee shall also submit a report thereon to the Secretary and notify producers and handlers of such revised or amended marketing policy.

**§ 998.50 Recommendation for regulation.** (a) The committee shall recommend regulation to the Secretary whenever it finds that such regulation, as provided in § 998.51, will tend to effectuate the declared purposes of the act.

(b) The committee also may recommend modification, suspension, or termination of any regulation in order to facilitate shipments of potatoes for the specified purposes set forth in § 998.52.

**§ 998.51 Issuance of regulations.** The Secretary shall limit the shipment of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(a) Regulate, in any or all portions of the production area, the shipment of particular grades, sizes, or quality, of any or all varieties of potatoes during any period; or

(b) Regulate the shipment of particular grades, sizes, or quality of potatoes differently for different varieties, for different portions of the production area, for consumer or wholesale packs, or any combination of the foregoing, during any period; or

(c) Regulate the shipment of potatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity.

**§ 998.52 Modification, suspension, or termination.** Upon the basis of the recommendations and information submitted by the committee, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 998.40, 998.51, 998.62, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the act:

(a) For grading or storing in the production area;

(B) For seed;

## RULES AND REGULATIONS

- (c) For export;
- (d) For distribution by the Federal government;
- (e) For manufacture or conversion into specified products;
- (f) For livestock feed; and
- (g) For other purposes which may be specified.

**§ 998.53 Minimum quantity regulation.** The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to §§ 998.40, 998.51, 998.62, or any one or more of such sections.

**§ 998.54 Notification of regulation.** The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination of regulations pursuant to this section. The committee shall give reasonable notice thereof to handlers.

**§ 998.55 Safeguards.** (a) The committee, with approval of the Secretary, may prescribe (1) adequate safeguards to prevent shipments pursuant to § 998.52 from entering channels of trade for other than the specific purpose authorized therefor, and (2) rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee.

(b) Safeguards, as prescribed herein, may include requirements that:

(1) Handlers shall file applications with the committee to ship potatoes pursuant to § 998.52;

(2) Handlers shall obtain inspection provided by § 998.62 or pay the pro rata share of expenses provided by § 998.40, or both, in connection with potato shipments effected under the provisions of § 998.52: *Provided*, That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the committee for shipments of potatoes effected or to be effected under the provisions of § 998.52.

(c) The committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that potatoes shipped by him for the purposes stated in § 998.52 were handled contrary to the provisions thereof.

(d) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(e) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested.

## INSPECTION

**§ 998.62 Inspection and certification.** During any period in which shipments of potatoes are regulated pursuant to the provisions of §§ 998.40, 998.51, or 998.52, each handler who first ships potatoes shall, prior to making shipment, cause

each shipment to be inspected by an authorized representative of the Federal-State Inspection Service or such other inspection service as the Secretary shall designate. Each such handler shall make arrangements with the inspecting agency for forwarding promptly to the committee a copy of such inspection certificate: *Provided, however*, That (a) each handler making shipments of potatoes during such period shall, prior to making such shipment, determine if such shipment has been inspected and if such shipment has not been so inspected and is not covered by an inspection certificate, the handler making such shipment shall have the potatoes involved in such shipment inspected and shall arrange for a copy of the inspection certificate to be forwarded to the committee as aforesaid, and (b) each handler who first ships potatoes after such potatoes are regraded, resorted, repacked, or in any other way further prepared for market shall have each shipment of such potatoes inspected as provided herein.

## EXEMPTIONS

**§ 998.67 Procedure.** The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

**§ 998.68 Granting exemptions.** (a) The committee may issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee (1) that by reason of a regulation issued pursuant to § 998.51 he will be prevented from shipping as large a proportion of his production in any crop year as the estimated average proportion of such production shipped by all producers in said applicant's immediate production area; and (2) that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the producer to ship the amount of potatoes specified thereon. Such certificate shall be transferred with such potatoes at time of sale.

(b) The committee may issue certificates of exemption to any handler who applies for such exemption and furnishes adequate evidence to the committee (1) that by reason of a regulation issued pursuant to § 998.51 he will be prevented from shipping as large a proportion of his storage holdings of ungraded potatoes, acquired during or immediately following the digging season, as the estimated average proportion of ungraded storage holdings shipped by all handlers in said applicant's immediate shipping area; and (2) that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the handler to ship the amount of potatoes specified thereon. Such certificate may be transferred with such potatoes at time of sale.

(c) The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

**§ 998.69 Appeal.** If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the termination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

**§ 998.70 Records and reports.** The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

## MISCELLANEOUS PROVISIONS

**§ 998.75 Reports.** Upon the request of the committee, with approval of the Secretary, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties hereunder. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

**§ 998.76 Compliance.** Except as provided herein, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions hereof, and no handler shall ship potatoes except in conformity to the provisions hereof.

**§ 998.77 Right of the Secretary.** The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

**§ 998.78 Effective time.** The provisions hereof shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

**§ 998.79 Termination.** (a) The Secretary may, at any time, terminate the provisions hereof by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions hereof whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions hereof at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers, who, during the preceding fiscal year, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such year, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced at least 60 days prior to the end of the then current fiscal year.

(d) The provisions hereof shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

**§ 998.80 Proceedings after termination.** (a) Upon the termination of the provisions hereof, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

**§ 998.81 Effect of termination or amendment.** Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant hereto, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision hereof or any regulation issued hereunder or (b) release or extinguish any violation hereof or of any regulations issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any

other person with respect to any such violation.

**§ 998.82 Duration of immunities.** The benefits, privileges, and immunities conferred upon any person by virtue hereof shall cease upon the termination hereof, except with respect to acts done under and during the existence hereof.

**§ 998.83 Agents.** The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

**§ 998.84 Derogation.** Nothing contained herein is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

**§ 998.85 Personal liability.** No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

**§ 998.86 Separability.** If any provision hereof is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder hereof, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

**§ 998.87 Amendments.** Amendments hereto may be proposed, from time to time, by the committee or by the Secretary.

Issued at Washington, D. C., this 3d day of April 1950, to be effective on and after 12:01 a. m., e. s. t., April 6, 1950.

[SEAL] CHARLES F. BRANNAN,  
Secretary of Agriculture.

## 1476 TITLE 24—HOUSING AND HOUSING CREDIT

### Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 234]

[Controlled Rooms in Rooming Houses and Other Establishments, Rent Reg., Amdt. 232]

### PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

#### MICHIGAN, INDIANA, ILLINOIS, AND OHIO

A. The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) is amended in the following respect:

In Schedule A, all of Item 152 which relates to Kalamazoo County, Michigan, is deleted.

This decontrols from §§ 825.81 to 825.92 Kalamazoo County, Michigan, a portion of the Kalamazoo-Battle Creek, Michigan, Defense-Rental Area, and leaves under control Calhoun County, Michigan, as said defense-rental area.

B. The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) is amended in the following respect:

Schedule A, Item 152, is amended to describe the counties in the defense-rental area as follows:

Calhoun.

In Kalamazoo County, the Townships of Charleston, Comstock, Kalamazoo, Portage and Ross, and the Cities of Augusta, Galesburg, Kalamazoo and Parchment.

This decontrols from §§ 825.1 to 825.12 all of Kalamazoo County, Michigan, except the Townships and Cities specified above, in the Kalamazoo-Battle Creek, Michigan, Defense-Rental Area.

C. The Controlled Housing Rent Regulation and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments are amended in the following respects:

1. Schedule A, Item 106, is amended to describe the counties in the defense-rental area as follows:

Delaware County, except the Town of Yorktown and Gaston; in Howard County, Center Township; and in Madison County, the Townships of Anderson and Lafayette.

This decontrols the Town of Gaston in Delaware County, Indiana, a portion of the Anderson, Indiana, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

2. Schedule A, Item 174, is amended to describe the counties in the defense-rental area as follows:

City of St. Louis and the Counties of Jefferson, St. Charles, and St. Louis; Madison and St. Clair.

This decontrols the County of Monroe, Illinois, a portion of the St. Louis, Missouri, Defense-Rental Area.

3. Schedule A, Item 227, is amended to describe the counties in the defense-rental area as follows:

Butler, Clermont and Hamilton.

Kenton; and in Campbell County, the Cities of Newport, Ft. Thomas, Dayton and Bellevue.

This decontrols the County of Warren, Ohio, a portion of the Cincinnati, Ohio, Defense-Rental Area.

All decontrols effected by this amendment, except Item C1 thereof, are on the Housing Expediter's own initiative in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective April 5, 1950.

Issued this 3d day of April 1950.

TIGHE E. Woods,  
Housing Expediter.

## NOTICES

### DEPARTMENT OF DEFENSE

#### Military Renegotiation Policy and Review Board

#### CONTRACTS CONTAINING THE RENEGOTIATION ARTICLE ENTERED INTO BY OR ON BEHALF OF THE DEPARTMENT OF DEFENSE, INCLUDING THE DEPARTMENTS OF THE ARMY, THE NAVY, AND THE AIR FORCE

Contracts containing the Renegotiation Article entered into by or on behalf of the Department of Defense, including the Departments of the Army, the Navy and the Air Force through December 31, 1949, exclusive of those previously reported in the listings through June 30, 1949, which were published in the FEDERAL REGISTER on November 8, 1949.

Pursuant to the note to § 423.322.1 (c) of the Military Renegotiation Regulations, three lists of numbers of prime contracts which contain the Renegotiation Article, together with the names of the contractors holding such contracts, have been published in the FEDERAL REGISTER. The last of these lists represented a consolidation of such information supplied by the Departments of the Army, the Navy, and the Air Force and extended through June 30, 1949. The following list includes contracts entered into through December 31, 1949, but excludes those previously reported in the listings through June 30, 1949. Contracts over \$1,000, but under \$5,000, have been omitted from this list; however, the omission does not affect the renegotiability of such contracts.

Publication of these lists, as well as future supplements, is for the sole purpose of disseminating information to help contractors and subcontractors identify sales which are subject to renegotiation. Although every effort has been and will be made to have the lists complete and accurate, the omission of

the number of a contract subject to the Renegotiation Act of 1948 does not relieve the contractor and the subcontractors thereunder from renegotiation. Conversely, the inclusion in a published list of the number of a contract which is not subject to the act will not make the contractor or subcontractor thereunder subject to renegotiation. The Renegotiation Article is not physically present in some of the contracts listed herein. However, it is considered that such contracts are required to contain the article and are therefore subject to the Renegotiation Act of 1948. Consequently, the numbers of such contracts are published herein for the same purpose of information as those in which the article is physically present.

Additional lists will be published from time to time in the FEDERAL REGISTER and, also, as supplements of the Military Renegotiation Regulations. The Military Renegotiation Policy and Review Board should be notified of any errors appearing on the lists so that corrections may be made.

FRANK L. ROBERTS,  
Chairman.

#### ORDER SCHEDULING ORAL ARGUMENT

In re application of the City of Jacksonville, Florida, Jacksonville, Florida, Docket No. 9336, File No. BMPCT-487; for additional time in which to complete construction of TV Station WJAX-TV, Jacksonville, Florida.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of March 1950;

The Commission having under consideration exceptions to the initial decision in the above-entitled proceeding and a request for oral argument, filed by the General Counsel of the Commission on February 20, 1950; a reply thereto filed by the City of Jacksonville on March 2, 1950, in which said reply the City neglected to include a request to participate in oral argument, pursuant to § 1.854 (c) of the Commission's rules; and a petition requesting that the Commission waive the requirements of § 1.854 (c) of the rules and permit the City to participate in the oral argument; and

It appearing, that no opposition has been filed to the request of the City of Jacksonville for a waiver of § 1.854 (c) of the rules; that the applicant neglected to include a request to participate in oral argument in its reply to the General Counsel's exceptions; that its reply was timely filed; and that, therefore, the City's request for waiver of § 1.854 (c) of the rules should be granted;

It is ordered, That oral argument on the foregoing exceptions and reply is hereby scheduled for April 14, 1950, at

TOWER REALTY CO. (WCUM)

#### ORDER CONTINUING ORAL ARGUMENT

In re application of The Tower Realty Company (WCUM), Cumberland, Maryland, Docket No. 9359, File No. BML-1322; for modification of license.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of March 1950;

The Commission having under consideration a letter, dated March 21, 1950, from counsel for Central Broadcasting Company, Inc., licensee of Station WARD, Johnstown, Pennsylvania, respondent in this proceeding, requesting that oral argument now scheduled for April 14, 1950, be changed to a date prior to April 13, 1950, or after April 20, 1950; and

It appearing, that counsel for Central Broadcasting Company had planned to be out of the city on April 14, 1950; that counsel for The Tower Realty Company has no objection to changing the date of oral argument; that therefore the request of Central Broadcasting Company, Inc., should be granted; and that an appropriate date for rescheduling oral argument in this proceeding is April 28, 1950;

Accordingly, it is ordered, That oral argument in the above-entitled proceed-

ing now scheduled for April 14, 1950, is continued to April 28, 1950, at 10 a. m.

Released: March 30, 1950.

TRI-CITIES BROADCASTING CO. (WJIG)  
ORDER AMENDING ISSUES

In re application of Raymond L. Prescott, Jr., and Henry L. Wilson, d/b as Tri-Cities Broadcasting Company (WJIG), Tullahoma, Tennessee, Docket No. 9544, File No. BP-7130; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of March 1950:

The Commission having under consideration the above-entitled application of Raymond L. Prescott, Jr., and Henry L. Wilson, d/b as Tri-Cities Broadcasting Company to change frequency and hours of operation from 740 kc., 250 watts, daytime, to 910 kc., 250 watts day—100 watts night, unlimited time, and to change geographic coordinates at Station WJIG, Tullahoma, Tennessee;

It appearing, that the said application was designated for hearing January 4, 1950, to determine whether the proposal involves a loss in population presently receiving daytime service and in other respects does not comply with the Standards of Good Engineering Practice for Standard Broadcast Stations;

It further appearing, that the application of the Tri-State Broadcasting Company for authority to establish a new standard broadcast station at Summerville, Georgia, was in conflict from the standpoint of interference with the pending application of the Tri-Cities Broadcasting Company, and as such both applications were designated for hearing on a consolidated proceeding on March 6, 1950;

It further appearing, that in the aforesaid order of March 6, 1950, the order of January 4, 1950, was amended to include issues 1, 3, and 7;

It further appearing, that by order of March 17, 1950, the Commission granted the Tri-State Broadcasting Company's petition to amend to specify a new frequency and removed the said application from the hearing docket;

*It is ordered*, That the Commission's order of January 4, 1950, as amended by the subsequent order of March 6, 1950, is further amended, to delete issues Number 1, 3, and 7 therefrom.

SOUTHEASTERN BROADCASTING SYSTEM  
ORDER DESIGNATING APPLICATION FOR  
HEARING ON STATED ISSUES

In re application of James S. Rivers, tr/as The Southeastern Broadcasting System, Waycross, Georgia, Docket No. 9613, File No. BP-7357; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 28th day of March 1950;

The Commission having under consideration (1) the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 790 kc., with 1,000 w. power, daytime only, at Waycross, Georgia; and (2) a petition filed March 2, 1950, by Paul Hunter, licensee of Station WLBE, Eustis, Florida, alleging interference to the service area of Station WLBE within the normally protected 0.5 mv/m contour; and

It appearing, that the applicant is legally, technically, financially and otherwise qualified, but that the proposed operation may involve interference with one or more existing stations and otherwise not comply with the Commission's Standards of Good Engineering Practice;

*It is ordered*, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is hereby designated for hearing at Washington, D. C., at 10:00 a. m. on July 3, 1950, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of KCRA as proposed and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Station WLBE, Eustis, Florida, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

*It is further ordered*, That the petition of Paul Hunter, licensee of Station WLBE, Eustis, Florida, is granted, and that the said Paul Hunter is made a party to this proceeding.

KCRA, INC.

ORDER DESIGNATING APPLICATION FOR  
HEARING ON STATED ISSUES

In re application of KCRA, Inc. (KCRA), Sacramento, California, Docket No. 9614, File No. BP-7404; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 28th day of March 1950;

The Commission having under consideration the above-entitled application requesting a construction permit to change facilities of Station KCRA, Sacramento, California, from 1320 kilocycles, 1 kilowatt power, unlimited time, using directional antenna at night, to 1320 kilocycles, 5 kilowatts power, unlimited time using a directional antenna day and night;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to construct and operate Station KCRA as proposed but that the application may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice;

*It is ordered*, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing at Washington, D. C., on the 5th day of July 1950, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of KCRA as proposed and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of Station KCRA as proposed would involve objectionable interference with Station KWBR, Oakland, California, or with any other existing broadcast stations and, if so, the nature and extent thereof, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of the proposed station would involve interference with a new Mexican station at Santa Rosalia, Baja California, or with any other existing foreign broadcast station, and the nature and extent of such interference.

4. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of Station KCRA as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the relative percentage of the population residing in the area between the normally protected and the interference-free contours and the population in the actual primary service area.

*It is further ordered, That, S. W. Warner and E. N. Warner d/b as Warner Brothers, licensee of Station KWBR, Oakland, California, is made a party to this proceeding.*

VALLEY BROADCASTING CO. (KLOK) AND  
CHARLES E. SALIK (KCBQ)

ORDER DESIGNATING APPLICATIONS FOR CON-  
SOLIDATED HEARING ON STATED ISSUES

In re applications of E. L. Barker, Claribel Barker, T. H. Canfield and Opal A. Canfield, d/b as Valley Broadcasting Company (KLOK), San Jose, California, Docket No. 9615, File No. BP-7400; for construction permit; Charles E. Salik (KCBQ), San Diego, California, Docket No. 9616, File No. BML-1392; for modification of license.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 28th day of March 1950;

The Commission having under consideration the above-entitled application of E. L. Barker, Claribel Barker, T. H. Canfield and Opal A. Canfield, d/b as Valley Broadcasting Company requesting a construction permit to change the hours of operation of Station KLOK, San Jose, California, on a frequency of 1170 kilocycles from daytime only to unlimited time using a power of 5 kilowatts at night employing a directional antenna for night use, and also having under consideration the above-entitled application of Charles E. Salik for modification of license of Station KCBQ, San Diego, California, for modification of the license to increase its nighttime power on a frequency of 1170 kilocycles from 1 kilowatt to 5 kilowatts employing its daytime directional antenna for night use;

*It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on July 7, 1950, at Washington, D. C., upon the following issues:*

1. To determine the technical, financial, and other qualifications of the applicants to construct and operate Stations KLOK and KCBQ as proposed.

2. To determine the type and character of program service proposed to be rendered by Stations KLOK and KCBQ and whether it would meet the requirements of the populations and areas to be served.

3. To determine whether the nighttime operation of Stations KLOK and KCBQ as proposed would involve objectionable interference with Station KVOO, Tulsa, Oklahoma, or any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and

the availability of other broadcast service to such areas and populations.

4. To determine whether the nighttime operations proposed by Stations KLOK and KCBQ would involve objectionable interference each with the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed nighttime operation of Station KLOK and Station KCBQ would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

6. To determine on a comparative basis which, if either of the applications in the consolidated proceeding should be granted.

*It is further ordered, That the Southwestern Sales Corporation, licensee of Station KVOO, Tulsa, Oklahoma, is made a party to this proceeding.*

ORDER DESIGNATING APPLICATIONS FOR CON-  
SOLIDATED HEARING ON STATED ISSUES

In re applications of Buttrey Broadcast, Inc., Billings, Montana, Docket No. 9617, File No. BP-6415; Frank E. Hurt & Son, Inc. (KFXD), Nampa, Idaho, Docket No. 9618, File No. BP-6513; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 28th day of March 1950;

The Commission having under consideration (1) the above-entitled application of Buttrey Broadcast, Inc. requesting authorization to construct a new standard broadcast station to operate on 580 kc., with 5 kw. power, unlimited time, using a directional antenna at night at Billings, Montana; (2) the above-entitled application of Frank E. Hurt & Son, Inc., requesting authorization to increase the power of Station KFXD, operating on 580 kc. at Nampa, Idaho, from 1 kw., unlimited time, using directional antenna day and night to 5 kw., unlimited time, using directional antenna at night, and (3) several petitions and oppositions filed by the aforementioned applicants which petitions were merged in, and superseded by, a petition by Frank E. Hurt & Son, Inc., filed September 30, 1949, and a joinder in said petition filed January 12, 1950, by Buttrey Broadcast, Inc., requesting a grant of both of the above-described applications without hearing and in accordance with their original proposals;

*It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications of Buttrey Broadcast, Inc. and Frank E. Hurt & Son, Inc., are designated for hearing in a consolidated proceeding, at Washington, D. C. at 10:00 a. m. on July 10, 1950, upon the following issues:*

1. To determine the technical and other qualifications of the applicant corporations, their officers, directors and stockholders, to construct and operate the proposed station and Station KFXD as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and Station KFXD as proposed and the character of other broadcast service to those areas and populations.

3. To determine whether the operation of the proposed station would involve interference with any existing broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the operation of Station KFXD as proposed would involve objectionable interference with Station WIBW, Topeka, Kansas, or with any other broadcast station, and, if there is objectionable interference, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station and Station KFXD as proposed would involve interference, each with the other, or with the services proposed in any other pending application and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station and Station KFXD as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the population residing between the normally protected and interference-free contours of Station KFXD as proposed and the population residing within the station's proposed 250 mv/m and 500 mv/m contours.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

*It is further ordered, That Topeka Broadcasting Association, Inc., licensee of Station WIBW, Topeka, Kansas, is made a party to this proceeding.*

*It is further ordered, That the above-described petitions are denied.*

[Docket Nos. 9619, 9620]

NEWTON Z. WOLPERT AND TWIN CITY  
RADIO DISPATCH, INC.

ORDER DESIGNATING APPLICATIONS FOR CON-  
SOLIDATED HEARING ON STATED ISSUES

In the matter of Newton Z. Wolpert, Docket No. 9619; applications for modification of licenses for 1 base station and 1 mobile station of 100 mobile units in the Domestic Public Land Mobile Radio Service at St. Paul, Minnesota (Files Nos. 2747/2748-C2-ML-E); and Twin City Radio Dispatch, Inc., Docket No. 9620; applications for modification of licenses for 1 base station and 1 mobile station of 100 mobile units to operate in the Domestic Public Land Mobile Radio Service at St. Paul, Minnesota (Files Nos. 4577 and 4668-C2-ML-E).

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of March 1950;

The Commission, having under consideration the applications of Newton Z. Wolpert for modification of licenses for 1 base station and 1 mobile station of 100 mobile units in the Domestic Public Land Mobile Radio Service at St. Paul, Minnesota (Files Nos. 2747/2748-C2-ML-E), requesting assignment, in the alternative, of the frequency pair 152.03 Mc. and 158.49 Mc. or the pair 152.15 Mc. and 158.61 Mc. (for base and mobile stations, respectively); and also having under consideration applications of Twin City Radio Dispatch, Inc., for modification of licenses for 1 base station and 1 mobile station and 100 mobile units in the same service and at the same place (Files Nos. 4577 and 4668-C2-ML-E), requesting assignment of both the frequency pair 152.03 Mc. and 158.49 Mc. and the pair 152.09 Mc. and 158.55 Mc. (for base and mobile stations, respectively):

It appearing, That the Commission, on October 17, 1949, as recorded in the Secretary's Minute of October 21, 1949 (85-S-49), and as announced in a public notice (Mimeo #42447) dated October 25, 1949, granted the aforesaid applications of Newton Z. Wolpert, assigning the frequency pair 152.15 Mc. and 158.61 Mc. (base and mobile, respectively);

It further appearing, that Newton Z. Wolpert, by a petition for rehearing filed November 14, 1949, has rejected the aforesaid grant, and, in effect, amended his applications so as to limit them to a request for assignment on the frequency pair 152.03 Mc. and 158.49 Mc. only, and has requested reconsideration and hearing on the subject applications;

It further appearing, that Twin City Radio Dispatch, Inc., after being informed of the aforesaid petition, has, by letter of November 28, 1949, indicated its continuing desire to receive an assignment of the frequency pair 152.03 Mc. and 158.49 Mc.;

It further appearing, that both applicants are thus applying for assignment of the frequency pair 152.03 Mc. and 158.49 Mc. for the use of their respective proposed stations in the Domestic Public Land Mobile Radio Service at St. Paul, Minnesota, and that such applications are mutually exclusive;

It further appearing, that Twin City

Radio Dispatch, Inc., has not shown, in its applications, justification for assignment to it of more than one communications channel (one frequency pair);

It further appearing, that the Commission has been furnished information which raises a question as to whether Twin City Radio Dispatch, Inc., has made unjust or unreasonable discrimination in its charges, practices, classifications, regulations, facilities or services for, or in connection with, the communication service afforded through its radio stations KAA282 and KA2605, contrary to the provisions of section 202 (a) of the Communications Act of 1934, as amended, or has charged, demanded, collected, or received a greater, less or different compensation for such communication service than that specified in legally applicable tariff schedules, or has unlawfully refunded or remitted a portion of the charges so specified;

It further appearing, that, based upon an examination of the files and records of, and pertaining to, the operations of Twin City Radio Dispatch, Inc., it appears that questions are presented as to (1) whether there has been a transfer of control with respect to such corporation which has not been reported to, and approved by, the Commission, as required by the provisions of section 310 (b) of the Communications Act of 1934, as amended, and § 1.322 of the Commission's rules and regulations; and (2) whether such licensee has, in various applications filed with the Commission, misrepresented to the Commission the facts relating to the control of such corporation;

*It is ordered,* That so much of the Secretary's Minute of October 21, 1949 (85-S-49), as evidenced the grant of the instant applications of Newton Z. Wolpert is hereby rescinded and vacated, and the license issued October 17, 1949, herein in the Domestic Public Land Mobile Radio Service for station KAA285 is hereby set aside;

*It is further ordered,* That pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, the foregoing applications are designated for hearing in a consolidated proceeding, at St. Paul, Minnesota, on a date to be hereafter specified, upon the following issues:

(1) To determine the justifications of the respective applicants for assignment of the frequency pair 152.03 Mc. and 158.49 Mc. for their base and mobile stations, respectively.

(2) To determine the justification of Twin City Radio Dispatch, Inc. for the assignment to it of more than one communications channel (one frequency pair).

(3) To determine whether Twin City Radio Dispatch, Inc. has directly or indirectly made any unjust or unreasonable discrimination in its charges, practices, classifications, regulations, facilities or services for, or in connection with, communication service afforded through its radio stations KAA282 and KA2605, contrary to the provisions of section 202 (a) of the Communications Act of 1934, as amended, or has charged, demanded, collected or received a greater, less or different compensation for such commun-

ication service than that specified in legally applicable tariff schedules, or has unlawfully refunded or remitted a portion of the charges so specified;

(4) To determine whether, since October 24, 1947, the date on which Twin City Radio Dispatch, Inc. filed with the Commission its first applications for radio authorizations, there has been any transfer of control with respect to Twin City Radio Dispatch, Inc. which has not been reported to, or approved by, the Commission, as required by the provisions of section 310 (b) of the Communications Act of 1934, as amended, and § 1.322 of the Commission's rules and regulations.

(5) To determine whether Twin City Radio Dispatch, Inc. has misrepresented to the Commission the facts and circumstances relating to the control of such corporation.

(6) To determine, in the light of the evidence on issues (3), (4) and (5) above, whether Twin City Radio Dispatch, Inc. is qualified to be a radio station licensee in the Domestic Public Land Mobile Radio Service.

(7) To determine the facts with respect to the existing and proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

(8) To determine, in the light of the evidence on the foregoing issues, which applicant is better qualified to serve the public interest, convenience or necessity.

(9) To determine, on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

Released: March 31, 1950.

## ARGUS PRESS CO. (WOAP)

MEMORANDUM OPINION AND ORDER SETTING  
FORTH DECLARATORY RULING

In re motion of The Argus Press Company (WOAP), Owosso, Michigan, BS-1859, for declaratory ruling.

We have before us a motion filed November 4, 1948, by The Argus Press Company, licensee of radio station WOAP, Owosso, Michigan, requesting a declaratory ruling removing alleged uncertainty as to the application of § 3.87 of the Commission's rules and regulations to prospective operation by Station WOAP. On October 8, 1948, WOAP, a Class II station, licensed to operate on the frequency 1080 kc. with power of 250 watts, daytime only, filed with the Commission a letter advising the Commission that commencing on November 1, 1948, it would operate with its authorized daytime facilities prior to local sunrise in accordance with the provisions of § 3.87. Section 3.87 provides that a Class II station may commence operation prior to local sunrise with its authorized daytime facilities if it does not cause interference

to a Class I station on its channel and that in the case of Class I stations located east of the Class II station, the Class II station may commence operation at the time of local sunrise at the Class I station. There are two Class I stations on WOAP's channel. They are WTIC, Hartford, Connecticut, and KRLD, Dallas, Texas. WOAP proposed to commence operation at the time of local sunrise at Hartford, Connecticut. It was asserted that under the Commission's Standards such operation would not result in objectionable interference to KRLD since that station already receives interference from WTIC and that at all points within KRLD's 0.5 50 percent skywave contour the interfering signal from WOAP would be less than 50 percent of the interfering signal from WTIC. By letter dated October 20, 1948, the Secretary of the Commission advised WOAP that its proposed operation would not be in conformance with § 3.87 since the Commission's Standards of Good Engineering Practice Concerning Standard Broadcast Stations do not provide for the exclusion of signals of less than 50 percent of the major interfering signal in the computation of objectionable interference to Class I stations. WOAP disagrees with this interpretation of the Standards and now seeks a declaratory ruling with respect to the matter.

We are of the opinion that the instant petition presents a situation in which a declaratory ruling would be appropriate.

WOAP asserts that under the Standards of Good Engineering Practice the RSS 50 percent exclusion method must be applied in computing skywave interference to the secondary service area of a Class I station as well as to the computations of skywave interference to the primary service area of other classes of stations. In support of this position WOAP relies chiefly on the following paragraph from page 4 of the Standards of Good Engineering Practice:

Objectionable interference from another broadcast station is the degree of interference produced when at a specified field intensity contour with respect to the desired station the field intensity of an undesired station (or the root sum square value of field intensities of two or more stations on the same frequency) exceeds for 10 percent or more of the time the values set forth in the Standards.

A similar paragraph also appears on page 5 of the Standards.

WOAP interprets the above paragraph to mean that whenever two or more signals exist on the same channel the RSS method including the 50 percent exclusion rule is applied in determining interference. We do not believe that any such meaning may be read into the paragraph, which is intended to be generally descriptive of the term "objectionable interference" and not necessarily to indicate the exact method by which objectionable interference is computed in particular circumstances. A correct interpretation is that objectionable interference exists whenever the single signal of an undesired station or the RSS value of two undesired signals, whichever is appropriate in the particular case, reaches a certain value. We must look

elsewhere in the Standards in order to determine which method of computation is appropriate in a particular case. That this is the meaning intended is made clear by other provisions of the Standards and the past practice of the Commission.

At a later page of the Standards we find the following:

The following table (table V) is to be used for determining the minimum ratio of the field intensity of a desired to an undesired signal for interference-free service. In the case of a desired groundwave signal interfered with by two or more skywave signals on the same frequency, the RSS value of the latter is used.

This clearly indicates that the RSS method of computation is to be used only in determining interference caused by skywave signals to groundwave services.

There is sound reason for using a different method in computing skywave interference to groundwave service than in computing skywave interference to skywave service. In the former case we are considering a signal of uniform intensity receiving interference from signals of varying intensity which may reach an interference-causing level for 10 percent of the time. Under such circumstances the Standards permit interference to be caused by the addition of one or more 10 percent-of-the-time-signals which are less than 50 percent of the RSS of interfering signals as relatively unimportant in its practical effect. When considering interference to a skywave service, however, we are faced with interference to a service which at the outset and without considering interference is widely fluctuating in intensity and which can only be relied on to provide satisfactory service part of the time. Since there is variation not only in the undesired but in the desired signals, the addition of a new interfering signal may have marked effects even though its in-

tensity is less than half of an interference level already present.

In support of its position WOAP cites the case of Mid-America Broadcasting Corporation, et al., Docket Nos. 6040 et al., 3RR 1547. In that case the Commission did apply the RSS method of computation and the so-called 70 percent rule then in effect in considering skywave to skywave interference. The Mid-America case cannot be distinguished and we are compelled to conclude that in this respect it was erroneous.

In view of the above we are of the opinion that the operation proposed by WOAP in its above-mentioned letter of October 8, 1948, would not be in conformance with § 3.87 of the rules and regulations, and we so rule this 28th day of March 1950.

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

In the matter of amendment of revised tentative allocation plan for Class B FM broadcast stations to change channel allocations to Muskegon, Michigan.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 28th day of March 1950;

The Commission having under consideration an amendment to its Revised Tentative Allocation Plan for Class B

FM Broadcast Stations to change the channel allocations to Muskegon, Michigan, as follows:

	Channel No.	
	Delete	Add
Muskegon, Mich.	293	255

It appearing, that the proposed amendment to the Allocation Plan is desirable in order to permit the grant of the pending application of Ashbacher Radio Corporation, licensee of Class B FM broadcast station WKBZ-FM at Muskegon, Michigan, to change its assigned channel from 293 (106.5 mc.) to 255 (98.9 mc.); and

It further appearing, that the adoption of said amendment will not reduce the present allocation to any area or require a change in the channel assignment of any other existing station or authorization; that the operation of a Class B FM station on Channel 255 at Muskegon, Michigan, will not cause objectionable interference to any station existing, proposed or contemplated by the FM allocation plan; and that no existing requirements of the Commission will be affected by the said amendment; and

It further appearing, that the nature of the proposed amendment is such as to render unnecessary the public notice and procedure set forth in section 4 (a) of the Administrative Procedure Act; and that for the same reasons this order may be made effective immediately in lieu of the requirements of section 4 (c) of said act; and

It further appearing, that authority for the adoption of said amendment is contained in sections 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended;

*It is ordered*, That, effective immediately, the revised tentative allocation plan for Class B FM broadcast station is amended so that the allocation to Muskegon, Michigan, is changed as follows:

General area	Channel No.	
	Delete	Add
Muskegon, Mich.	293	255

[Docket No. G-228]

AMERICAN SMELTING AND REFINING CO. AND BORDER PIPE LINE CO.

NOTICE OF APPLICATION

MARCH 31, 1950.

Take notice that American Smelting and Refining Company, address 120 Broadway Street, New York, New York, and Border Pipe Line Company, address 2001 National Standard Building, Houston, Texas, filed on March 13, 1950, a joint application for an order of the Commission authorizing the exportation of natural gas from the United States to Mexico pursuant to section 3 of the Natural Gas Act.

The applicants are now the holders of orders issued on October 10, 1942, and November 4, 1942, authorizing the exportation of 12,000,000 cubic feet of gas per day from the United States to Mexico for a term expiring July 10, 1953, and by this application the volume is to be increased to 14,000,000 cubic feet per day for a term of ten years from date of first deliveries under a contract dated July 1, 1949, for a supply of gas between Applicant and Continental Oil Company and others. The Border Pipe Line Company is now receiving approximately 5 cents per Mcf for gas delivered to the American Smelting and Refining Company at

the international border, which charge is to be increased to approximately 8½ cents per Mcf.

Applicants state that the same facilities for the exportation of gas will be used for the additional volumes of 2,000,000 cubic feet per day as described in and authorized by the Presidential permits heretofore issued.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of April 1950. The application is on file with the Commission for public inspection.

**RAILWAY MAIL PAY  
NOTICE OF HEARING**

MARCH 30, 1950.

The above-entitled proceeding is set for further hearing at the office of the Commission in Washington, D. C. at 9:30 a. m., United States standard time (or 9:30 a. m., District of Columbia daylight saving time if such time is observed) on September 19, 1950, before Commissioner Mitchell and Examiner Mullen.

The applicant railroads and the Postmaster General are directed, respectively, to prepare testimony in writing and, on or before August 15, 1950, to furnish copies thereof to each other and to the Commission, together with the exhibits to be offered in evidence.

Hearing is set at the same time and place upon the "Comprehensive Plan of the Postmaster General for Transportation of United States Mail," filed in this proceeding on July 2, 1948. A copy of the said plan was served by the Commission on July 30, 1948, pursuant to its order entered July 27, 1948, upon all railway common carriers required to transport mail matter under the Railway Mail Pay Act of July 28, 1916, 39 Stat. 412, 419, 425-431, restated in 39, U. S. C. 523-541, 542-568.

It is directed that a copy of this notice be served upon the Postmaster General and upon all railway common carriers required to transport mail matter under the said act; and that notice of this hearing be given to the public by depositing a copy of this notice in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy thereof with the Director, Division of the Federal Register.

**ORDER GRANTING AND PERMITTING JOINT  
APPLICATIONS-DECLARATIONS TO BECOME  
EFFECTIVE**

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of March A. D. 1950.

Ohio Edison Company ("Ohio Edison"), a registered holding company and a public utility company, and its subsidiary, the Ohio Public Service Company ("Public Service"), a public utility company, having filed with this Commission joint applications-declarations, as amended, pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act"), and Rules U-43 and U-62 promulgated thereunder for approval of certain transactions incident to the merger of Public Service into and with Ohio Edison, including, among other things, the exchange of a new series of Ohio Edison preferred stock for the outstanding Public Service preferred stock and the exchange of Ohio Edison common stock for the publicly held common stock of Public Service; and

A public hearing having been held, after appropriate notice, with respect to said applications-declarations, as amended, and the Commission having considered the record and having filed its findings and opinion herein:

*It is ordered*, That the said joint applications-declarations, as amended, be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed by Rules U-24 and U-62 and subject to the following additional conditions:

(1) That so long as any of the bonds of the 3% Series of 1944, due 1974, or any of the 2 1/4% Series of 1945, due 1975, or any of the 3 1/4% Series of 1948, due 1978, or any of the 4.40% Preferred Stock or any of the new 3.90% Preferred Stock of Ohio Edison shall remain outstanding, Ohio Edison will not declare or pay any dividends on its common stock (other than dividends payable in common stock) or make any distribution of assets to holders of common stock by purchase of shares or otherwise, in an amount which, when added to the aggregate of all such dividends and distributions subsequent to September 30, 1944 (that is the last day of the month in which the bonds of the 3% Series of 1944, due 1974, and the 4.40% Preferred Stock were issued), would exceed 75% of the consolidated net income of Ohio Edison and its subsidiary companies earned subsequent to September 30, 1944, if, after the payment of any such dividend or the making of any such distribution, the aggregate of the par value of, or stated capital represented by, the outstanding shares of common stock of Ohio Edison and of the consolidated surplus of Ohio Edison and its subsidiary com-

panies would be less than an amount equal to 25% of the total consolidated capitalization and consolidated surplus of Ohio Edison and its subsidiary companies as defined in the registration statement in respect of the First Mortgage Bonds 2 1/4% Series of 1945, due 1975, filed by Ohio Edison under the Securities Act of 1933, as amended.

(2) That jurisdiction be and the same hereby is reserved with respect to all fees and expenses incurred or to be incurred with respect to the transactions proposed herein.

**NORTHERN NATURAL GAS CO.**

**NOTICE OF FILING**

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of March 1950.

Notice is hereby given that an application-declaration and amendments thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by Northern Natural Gas Company ("Northern Natural"), a registered holding company. Northern Natural designates the first sentence of section 6 (b) or section 7 of the act as being applicable to the proposed transactions which are summarized as follows:

Northern Natural seeks an order from the Commission pursuant to the first sentence of section 6 (b) of the act, or alternatively pursuant to section 7 of the act, permitting the issuance of notes, having a maturity of not more than nine months, in an aggregate amount not to exceed \$15,000,000. Northern Natural is presently authorized by the first sentence of section 6 (b) of the act to issue such notes in an amount not to exceed \$3,268,000.

If such an order is entered Northern Natural proposes to issue, from time to time, as a temporary financing measure promissory notes bearing interest at 2%, maturing not more than nine months after date of issuance, to the following banks in the amounts indicated:

The Chase National Bank of the City of New York.....	\$7,000,000
Continental Illinois National Bank & Trust Co., Chicago, Ill.....	7,000,000
The Omaha National Bank, Omaha, Nebr.....	500,000
The United States National Bank of Omaha, Omaha, Nebr.....	300,000
First National Bank of Omaha, Omaha, Nebr.....	200,000

Present plans of Northern Natural for financing its 1950 construction program, estimated at \$51,950,000, call for the offering in May 1950, to its own stockholders of 304,500 shares of common stock on the basis of one share for eight shares held, and the issuance and sale in June 1950, of \$40,000,000 principal

amount of serial debentures. All notes proposed to be issued will be retired by use of the proceeds from the contemplated sale of stock and debentures.

Notice is further given that any interested person may, not later than April 13, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW, Washington 25, D. C. At any time after April 13, 1950, said application-declaration, as filed, or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

## ALDRED INVESTMENT TRUST

## NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of March A. D. 1950.

Notice is hereby given that Aldred Investment Trust (Aldred), 30 Broad Street, New York 4, New York, a registered, closed-end, investment company, has filed an application under section 23 (c) (3) of the Investment Company Act of 1940, for an order authorizing and approving an invitation by Aldred to purchase a maximum of 2,726 shares of common stock of which Aldred is the issuer, from approximately 109 minority stockholders, at \$14.28 a share or a total of \$38,927.28. There are 35,616 shares outstanding, of which 32,890 shares (or more than 92%) are owned by Richard L. Rosenthal. The stock had an asset value of \$15.28 a share at February 28, 1950. The difference between the proposed purchase price of \$14.28 a share and the asset value at February 28, 1950, of \$15.28 a share, is based upon consideration of counsel and accounting fees and printing expenses estimated to aggregate \$2,772.

As of July 1, 1949, there were issued and outstanding 82,616 shares of which 47,000 shares were repurchased from three holders at prices ranging from \$9.40 to \$9.75 a share (File Nos. 812-601, 812-605, and 812-609). Aldred will offer to purchase all of said 2,726 shares from shareholders other than Richard L. Rosenthal, at the price of \$14.28 a share, by direct mail and personal solicitation and they will be advised of the net asset

value of their shares as of the time of the offering. None of the shareholders to whom the offer is to be made is an affiliated person of Aldred as defined in the act. In the event that the number of shareholders is reduced, as a consequence of such purchases, to 100 or less, Aldred proposes to file an application under section 8 (f) of the act for an order of the Commission declaring that it has ceased to be an investment company under the provisions of section 3 (c) (1) thereof and terminating its registration as an investment company.

Section 23 (c) of the act prohibits any closed-end company to purchase any securities of any class of which it is the issuer except upon conditions not here applicable or under such other circumstances as this Commission may permit by rules and regulations or orders for the protection of investors in order to insure that the purchases are made in a manner or on a basis which does not unfairly discriminate against any holders of the class or classes of securities to be purchased. Furthermore, the proposal does not meet the requirements of any rule or regulation adopted thereunder.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after April 10, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than April 7, 1950, at 5:30 p. m., in writing submit to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and issues of fact or law raised by the application which he desires to controvert.

By the Commission.
